

EAST DENVER NATURAL GAS PROJECT

CONSTRUCTION STARTING SOON

This map is a graphic and may not show exact locations.

Construction starting soon

Construction will begin as early as **Monday, June 5, 2023**, and is expected to continue through fall 2023. Schedules are subject to change.

During work, you may notice:

- Marking of utility lines and utility survey holes
- Road and sidewalk closures
- Traffic control
- Temporary changes to access
- Construction noise

We'll restore work areas to preconstruction conditions as weather allows.

About

We continue to replace up to 10,000 feet of natural gas line in Denver, Colorado. We will replace natural gas lines and complete service installations to provide natural gas directly to customers.

This work allows us to provide safe, reliable service, increases natural gas capacity in many metro area communities and enhances system resiliency in extreme weather.

Safety

Public safety is at the foundation of all we do. The safety of the public around Xcel Energy's natural gas system influences every decision we make.

If you suspect a natural gas leak, leave your home or business immediately. Once you are safely away, call **911**, then Xcel Energy at **800-895-2999**.
