

CONSTRUCTION NEAR YOU

This map is a graphic and may not show exact locations.

Work in your area

We will install natural gas line in the intersection of 19th Avenue and Ogden Street beginning as early as Monday, July 17, 2023. A full road closure will occur Monday through Friday between 8 a.m. and 4 p.m. as we work in this area. Through traffic will be allowed overnight and on weekends, but a lane shift may be in place. We expect to work in this area for up to three days.

Prior to construction, no-parking signs will be placed along the construction area at least 48 hours in advance of work occurring.

Local traffic to sites in the work area will be allowed, follow directions from construction crews. Schedules are subject to change.

During work, you may notice:

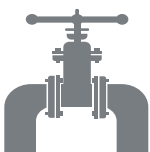

- Marking of utility lines and utility survey holes
- Road and sidewalk closures
- Traffic control
- Temporary changes to access
- Construction noise
- Parking restrictions

We'll restore work areas to preconstruction conditions as weather allows.

Overview

We continue to replace up to 10,000 feet of natural gas line in Denver between 2021 and 2024. This work allows us to continue to provide safe, reliable natural gas service and enhances system resiliency during extreme weather.

Safety

Public safety is at the foundation of all we do. The safety of the public around Xcel Energy's natural gas system influences every decision we make. If you suspect a natural gas leak, leave your home or business immediately. Once you are safely away, call **911**, then Xcel Energy at **800-895-2999**.
